How to assemble

## Start to play

How to play the first game after Doctor Putting installation.

1) Please connect to Adaptor.

2) Turn on the monitor and set the correct HDMI to the external input.

3) Set up the mouse.

- Please insert the Dongle (mouse receiver) to the position. This surface of dongle should be up.
- Holding the remote control and move the pointer where you want to be on Menu. And, push the "OK" button. (If the mouse move while pushing the button, you could not select the Menu you want. Be careful.)

\* If you lost the mouse, you may use other mouse on the market. (You must connect USB to the original position.)

4) Language choice

Please click the upper icon and choose the language

5) Distance unit choice

6) Screen saver mode

- After 15 minutes no use, the unit goes into screen saver mode.

If you move the mouse, the system will start again.

7) Sound adjustment

You may control the sound volume by TV / Monitor volume.

## System ending

© Click the system ending button in main menu.

© Click YES, system will be ended.

If you want to turn on system again, click No and move your mouse.

## Practice Mode

Click the Practice Mode

You may repeatedly practice to putt in various of distances, slopes and green speed.

## Practice Mode

- ① Direction angle, putting distance and left distance from the hole for current putting, previous putting, before last putting.
- ② Show your putted ball locations around the hole. (The distance for each color is 50cm)
- ③ Distance up to the hole, height, left/right slope, additive distance as the height and slope.  
You may control height and left/right slope as below
- ④ Control green slope. (front/ rear : unit 0.01 (10 cm) , left/right : 0.1 degree, RESET : default / back to the flat green)
- ⑤ Control putting distance. (left/right direction using -, +) (1M ~ 20M)
- ⑥ Control green speed. (left/right using -, +)  
You can play 11 levels (-5 ~ 0 ~, +5)  
The adoption of the STIMPETER  
(-5 : 1.8, -4 : 2.0, -3 : 2.2, -2 : 2.4, -1 : 2.7, 0 : 3.0  
+1 : 3.3, +2 : 3.6, +3 : 3.9, +4 : 4.2, +5 : 4.5)
- ⑦ Starting angle between putter face and ball, putting distance and left distance up to hole.
- ⑧ Ending game and back to main menu.

## Practice Mode

### 1) How to putt

Please put the ball on the right position  
and the sound “READY” comes out.  
(Please refer to the picture.)

※ If the ball is put on the wrong position,  
the putting ball would have no response  
or go to the abnormal direction.  
Players should put the ball on the fixed position.

## Practice Mode

## 2) Putting Analysis

Click "Putting Analysis", the below mode comes out.

Please putt 10 tiems

The putting analysis like the upper picture comes out.  
(front/back/left/right distance total)

## Target Game
